

RISK MANAGEMENT POLICY 2018

Sudbury Town Council is committed to a proactive approach to risk management. The Council recognises the value of maintaining an effective risk management culture and will seek to identify, analyse, manage and control the risks it faces. The Council acknowledges that risk cannot be totally eliminated and may sometimes need to be embraced as part of an innovative approach to problem solving.

Objectives of Risk Management Strategy:

1. Ensure that statutory obligations and policy objectives are met;
2. Prioritise areas for improvement in service provision and encourage meeting or exceeding customer and stakeholder expectations;
3. Safeguard its employees, clients or service users, Members, pupils, tenants and all other stakeholders to whom the Council has a duty of care;
4. Protect its property including buildings, equipment, vehicles, knowledge and all other assets and resources;
5. Identify and manage potential liabilities;
6. Maintain effective control of public funds and efficient deployment and use of resources achieving value for money;
7. Preserve and promote the reputation of the Council;
8. Support the quality of the environment;
9. Learn from previous threats, opportunities, successes and failures to inform future management of risks.

The Clerk jointly with the Responsible Financial Officer will review risks on a regular basis, including any newly identified risks, and will report to the Council. The review will include identification of any unacceptable levels of risk.

Risk identification and mitigation

Members should, therefore:

- (a) Take steps to identify key risks facing the Council
- (b) Evaluate the potential consequences to the Council if an event identified as a risk takes place
- (c) Decide upon appropriate measures to avoid, reduce or control the risk or its consequences.
- (d) Record any conclusions or decisions reached.

To identify the risks facing the council, the Guidance recommends beginning by grouping the three main types of decisions that have to be taken into the following areas:

- 1) Assets and facilities.

- 2) Operations and processes.
- 3) Financial operations.

1. ASSETS AND FACILITIES

Risk mitigation factors and approaches:

1.1. Insurance cover for risk is:

- Protection of physical assets: *All physical assets are insured.*
- Office Equipment: Insured to the value of £72,124

1.2. Assets management:

- The Asset Register is reviewed annually by the Responsible Financial Officer and members receive a regularly updated list.
- Regular maintenance for physical assets by the Facilities Manager.
- Security for vulnerable buildings, amenities or equipment monitored by the Facilities manager.
- Annual Review of risk and the adequacy and robustness of insurance cover by the Clerk and the Responsible Financial Officer.

1.3. Risks identification, assessment and mitigation:
